PERFECT FROM -20° TO 250°C

L'alto spessore del fondo e i rivestimenti antiaderenti di cui sono composte garantiscono, non solo una cottura uniforme grazie alla corretta diffusione del calore, ma anche una maggiore indeformabilità rispetto agli altri prodotti sul mercato, che le rende anche esteticamente perfette per essere portate in tavola.

Extra thick bottoms and non-stick coatings guarantee not just even baking thanks to correct heat conduction, but also ensure the tins keep their shape better than others on the market, making them perfect also for serving at the table.
